About the AquaSmart

Optimize your heating system's efficiency and comfort with the Beckett AquaSmart which is equipped with the HeatManager fuel economizer.

The Beckett AquaSmart will automatically adjust the average temperature of the circulating hot water in your system as your heating needs change. This will provide you with just the right amount of heat at the right time. By adding a Beckett AquaSmart to your boiler system, you'll experience these results:

1. A minimum 10% reduction in heating fuel usage — Guaranteed!
2. Consistent comfort level due to the AquaSmart's Domestic Hot Water Priority feature, which assures that your hot water will be available when you need it.
3. Freeze resistance for peace of mind.
